To Whom It May Concern:

Michelle White has facilitated two workshops for the Child Focus, Inc. staff on *Teaching Science Using Children's Literature*. Michelle is very passionate about teaching young children about Science and she passes that along to the participants.

On both occasions, she has brought numerous items for the participants to experience "hands on" learning during the workshops. The interactive nature of the workshops and Michelle's positive energy leaves the teachers feeling empowered to utilize the activities in their classrooms.

Following both presentations, our teachers have told me how much they enjoyed the workshop and would like to have Michelle return for another one. I would highly recommend the Crystal Clear Science program to all early childhood educators.

Sincerely,

Charlotte Chambers
Training Coordinator
Child Focus, Inc.

The mission of Child Focus, Inc. is to join with communities in strengthening families and improving the quality of life for children.
